FANCY ARTICLES. Prescriptions carefully Compounded

That's a common expres-sion and has a world of meaning. How much suffering is summed up in it.

The singular thing about it is, that pain in the back is occasioned by so many things. May be caused by kidney disease, liver complaint, consumption, cold, rheumatism, dyspepsia, over-work, nervous debility, &c.

Whatever the cause, don't neglect it. Something is wrong and needs prompt attention. No medicine has yet been discovered that will so quickly and surely cure such diseases as Brown's Iron Bitters, and it does this by commencing at the foundation, and making the blood pure and rich.

> Wm. P. Marshall, of Logansport, Indiana, writes: " My wife has for many years been troubled from pain in her back and general debility incident to her sex. She her taken one bottle of Brown's Iron Bitters, and I can truthfully say that she has been so much benefited that she pronounces it the only remedy of many medicines she has tried."

Leading physicians and clergymen use and recommend Brown's Iron Bit-TERS. It has cured others suffering as you are, and it will cure you.

NEWS OF THE NORTHWEST.

Most of the Pacific county logging camps have shut down for the winter. The Washington Territorial school law is construed to permit the wife of every legal voter at the school election to cast her vote also.

Rumors are affoat in Oysterville that San Francisco dealers are selling Shoulwater bay oysters in Portland for \$2.50 a sack, under the name of California oysters.

The steamer Montesano is making regular trips to Marshfield at the head of the bay, carrying systems from Bay Center and other points on the bay twice a week. It is under-stood that the S. B. T. Co. intends to keep a steamer on that line.

The fishermen and others at Ilwaco interested in the saloon business, learning that a biff is about to be in-troduced in the legislature to prohibit the catching of salmon in the Columbia river during the mouth of April, held a meeting Saturday night to take steps toward the defeat of the bill. The meeting was largely attended; L. D. Williams was elected chairman and John R. Goulter secretary. Resolutions were passed petitioning the legislature to reject the bill. Another petition was circulated setting forth the detriment it would mon in after years.

The Expense of the New Postage Stamp.

"How much do you suppose the new stamps cost the government?" was asked the other day by Assistant Postmaster-General Hazen. "You don't know, but I'll tell you-just 915 cents a thousand. They cost the contractors more than that, the plates, paper, printing, perforating and putting the mucilage on is worth something; then they must be packed and done up in high priced envelopes. Half the postoffices do not call for more than a hundred stamps at a time, but they have to go through the same routine as in filing an order of millions for New York. It costs them more than they get." "Where is the profit in the contract?" I naturally asked. "Right here," was the response. "All the countries on this continent south of us have their postage stamps made in this country. postage stamps made in this country They prefer the concern that supplies our government. This is the Ameri-can Bank Note Company of New York. But they have to pay from five to ten times the price we pay, and they find no fault. There's where the profit comes in from making our stamps. It is the only way to secure these other good contracts." People have wondered often why the government, with its great bureau of printing and engraving here in Washington is always underbid by outside parties in the stamp and postal note contracts. Perhaps they will see more clearly after reading this para-graph. Washington Corr. Troy
